Welcome to ICOS Science Conference 2024!

ICOS Science Conference 2024 will be held in Versailles, France and online on 10th-12th September 2024.

The event brings together scientists from around the world to present their latest research, engage with their peers and make new connections.

Following the success of our first hybrid ICOS Science Conference in 2022, this year's conference will also be a fully hybrid event, allowing participation from anywhere in the world.

The sessions

The sessions chosen for ICOS Science Conference 2024 reflect some highly topical issues as well as emerging trends within the fields of atmospheric, ecosystem, and ocean sciences.

On top of reflecting ICOS's three domains, the sessions incorporate broader themes such as climate services and science communication.

See the full list of sessions: icos-ri.eu/sc24

Call for abstracts

ICOS Science Conference 2024 abstract submission and evaluation, as well as participant registration, are organised through the Oxford Abstracts platform.

Authors of submitted abstracts can edit their submissions as long as the abstract submission is open. Once the submission period closes, the abstract is evaluated using a double-anonymous evaluation process.

The call for abstracts opened in February and closes on Monday 8th April at 13:00 CET.

Submit your abstract: icos-ri.eu/sc24

& ONLINE

Registration

The conference registration opens on 1st May 2024. There are two options for participation – in-person and remote.

Both types of attendees will have equal opportunities to present their research as oral or poster presentations, depending on the result of the abstract evaluation. With both options, attendees will be able to listen and ask questions during the sessions.

The registration prices will be announced on the conference website at a closer date.

The conference venue

ICOS Science Conference 2024 will be hosted in Palais des Congrès, a newly-renovated event space situated across from the historical Château de Versailles, France.

Versailles is located close to Paris, meaning a host of public transport options are available.

More information on transportation as well as accommodation options available near the venue have been collected on the conference website: icos-ri.eu/sc24

Richelieu amphitheatre

Excursions and side events

During the conference week, we will be hosting a variety of insightful side events and excursions. In previous years, the excursions have included visits to ICOS stations or local landmarks.

Follow our website and social media to stay updated.
